

For COMVEX®

BoardVitals offers COMVEX® board review questions for the examination offered by the National Board of Osteopathic Medical Examiners (NBOME). The question bank is designed around difficult questions and includes detailed explanations to help students where they need it most.

BoardVitals Features

- ✓ Challenging COMVEX® Board review questions
- ✓ Detailed answers with in-depth explanations to cover related topics
- ✓ Create customized practice tests and track results in real time
- ✓ Review mode or Timed mode to simulate exam conditions
- ✓ 24-hour access from anywhere via computer or mobile device

“BoardVitals offers well-written practice questions with HIGHLY detailed explanations. Students learn high-yield associations so that they know what key information to look for on the real exam.”

Administrative Features of BoardVitals Include

- **Monitor Student Usage**
 - Track the time students are using the platform and promote engagement to inactive users
- **Track Student Performance**
 - Administrators can track student performance to serve as a proactive remediation tool
- **Create Customized Exams**
 - Faculty can send customized exams to students or utilize questions in the classroom
- **Track Performance by Category**
 - Send entire categories of questions to students for practice
- **Flag Individual Questions**
 - Flag individual questions and send to one or many students to highlight a particular concept

About BoardVitals

BoardVitals helps healthcare practitioners and students train for certification and recertification exams, in-service exams, and meet continuing education requirements in over 50 health and medical specialties. BoardVitals brings together content from major publishers, universities, and top healthcare professionals into a single platform, creating the largest training ecosystem in health and medicine. BoardVitals contributors are experts from top tier academic and practicing institutions such as Harvard, Yale, Duke, and Mt. Sinai helping us create the best, most up-to-date content available.
