"The database of questions is not only large, but also the quality of questions is unsurpassed. I was especially impressed with the explanations, which often included images, charts, or tables to summarize large amounts of information. Using this system to prepare for the PRITE exam helped me increase my score significantly and will be incredibly valuable to me as I prepare for the boards as well. The convenience of reviewing for boards from anywhere is great. I won't need to attend an in-person course and spend thousands of dollars to pass the boards."
